

PRODUCT SIZE

DETAILS AND BENEFITS

● Four nozzles

Four nozzles jet ink at the same time, up to 40 lines can be printed, wide range of uses, clear coding

● Roller base

Precise Printing, prevents coding failure caused by jitter or uneven movement

● One-click coding

Ergonomic handle, One-click printing button, comfortable and powerful grip

● 5 inch touch screen

Operate with finger touch, high sensitivity, easy operation

Designation	Specifications description
Display	5-inch color HD LCD capacitive touch screen
Status display	LED light shows green indicating ready status; blue indicating printing status; red indicating alarm status;
Operation interface	User friendly UI design, easy to operate
Printing content	Text, number, symbol, QR code, barcode, picture, time, date, counter, etc
Spray printing material	Water absorbing materials such as wood board, carton, fiberboard, etc
Typography	Vector font, dot matrix font
Printing accuracy	300dpi
Number of printing lines	Up to 40 lines
Printhead Height	25mm-100mm (according to the number of nozzles)
Printing distance	2-5mm (distance between nozzle and object)
Size	239*182*117mm
Printing speed	30m / min (maximum speed of 300dpi)
Printing position	360 degree inkjet
Ink color	Black, red, yellow, blue
Cartridge capacity	42ml
External interface	USB, photoelectric interface, power interface, USB disk, synchronizer, alarm light
Battery capacity	6000mAh
Standby time	22h
System power consumption	47W
Operating ambient temperature	0-40°C
Ambient humidity	10%-80%
Power Supply	DC9V-5A
Weight	1.25Kg
Storage capacity	8GB
Continuous printing time	4h

Quad-core CPU
8GB large storage space

Hot foaming nozzle

Large capacity rechargeable battery

300dpi high-definition printing quality

5 inch large color touch display

Application

Wooden box printing

It is used for printing in the wooden box industry, and the digital printing method solves the traditional template printing.

Paper bag logo

Satisfy the printing content of paper bag production date, product name, etc.
